The LITE House
Operations and Social Media Intern
Athens

About
The LITE House is a new entrepreneur center and coworking space that has recently opened in Athens, TN. The LITE House is a project of Tennessee Wesleyan University and has been supported by the local government, private grants funds, and state and federal grants. All programming at the LITE House is open to the campus and the community. Programming includes small business workshops, CO.STARTERS, one-on-one mentoring, Spark youth camp, coding camps for youth and adults, private office spaces, and coworking spaces.

The LITE House is located in the quaint downtown Athens, which has a rich entrepreneurial heritage. As we are still in the early stage of development, an intern would have an integral part in helping set the future direction of the LITE House. We have a small staff so there would be great opportunities to get involved in many aspects of the center.

Intern roles and responsibilities
- Day-to-Day Operations of the Spark Camp: A Camp for Young Entrepreneurs
- Offering the Spark Curriculum to the local Y-CAP program
- Help develop a social media marketing plan for the LITE House offerings such as coworking and workshops
